 - i. Price Breakdown, except add Lumber Posts – add \$175 pr.
 - c. Note: prices do NOT include shipping (from Cal.)

2. Stop Sign
 3. Rules/Info Signs
 4. General Info
- Material is guaranteed for twenty years against degradation, and 10 years UV stability. If the signs are maintained regularly with soap & water, and Armor All, the UV stability will increase. The digital inlay on Lexan may be replaced when needed (5-7 yrs.) by a local sign shop.
 - Aluminum would save about 15%, however it will weather poorly, and graffiti would ruin it.

 - c. 4' x 3' x 3/4" thick Post-mounted: \$750

6. Stop Sign (18" x 30")
 - a. 18"x30"x1/2" Fence Mounted: **\$150** (with iron fence mounting system)

7. Proposed Designs

2. Rules/Info Signs: This company would not do these signs/too many words to engrave.
3. General Info
 - Material: recycled plastic HDPE. A couple of big advantages would be that our plastic signs won't dent like metal. The other being graffiti. Nothing will stain or harm our plastic, so graffiti can just wipe off with paint thinner without harming the sign.
 - We warrant the signs for 10 years against material defects such as cracking, splitting, or de-lamination.
 - Turn around time would be about 2-3 weeks.
4. Other Samples/Examples of Work:

48" x36"
FENCE MOUNT

54"X32"
POST MOUNT
